MAT for Opioids and Alcohol: Know Your Options

HOPE

For Opioid Use Disorder

- Buprenorphine eases cravings
- Suboxone adds naloxone
- Ceiling effect lowers overdose risk

HOPE

For Alcohol Use Disorder

- Naltrexone as a daily tablet
- Or a monthly Vivitrol injection
- Makes the urge to drink easier to resist

HOPE

Safety First

- Ask before stopping heavy drinking
- No opioids with naltrexone
- Share every medicine you take

HOPE
